IMPORTANT: READ BEFORE USE **ENGLISH**
 • Before using this product, please read this manual carefully.
 Keep it on hand for future reference.

POWER SUPPLY

This calculator comes with a dual power source. The duration of an alkaline battery depends entirely on individual usage. (Note: Do not attempt to change the battery by yourself. Have a Canon Service Center change the battery for you).

DECIMAL POINT SELECTOR SWITCH

Used for designating the decimal point position (4 2 1 0) for calculated results.

+ (Add-Mode) – Addition and subtraction functions are performed with an automatic 2-digit decimal. It is convenient for currency calculations.

F (Floating Decimal Point) – All effective numbers up to 12 digits are displayed.

ROUNDING SWITCH

Used for round-up [↑], round-off [5/4] or round-down [↓] to the pre-selected decimal digits in the result.

TAX CALCULATION

Store the Tax Rate – Press **ON CA** **SET TAX+** and enter the tax rate figure, then press **SET TAX+** to store.

Recall the Tax Rate – Press **ON CA** **RECALL TAX-** to recall the current tax rate.

Add Tax Key – Used for adding the tax amount to the displayed figure.

Deduct Tax Key – Used for deducting the tax amount from the displayed figure.

BUSINESS SALES CALCULATION

Used for calculating the cost, selling price and profit margin amount. Enter the value of any 2 items to obtain the balance value item. (e.g. enter the value of the cost and the selling price to obtain the profit margin.)

After the last value is shown, press **COST**, **SELL** or **MARGIN** to recall all values in sequence.

CURRENCY CONVERSION CALCULATION

Store the Currency Conversion Rate – Press **ON CA** **SET** and enter the currency conversion rate, then press to store **SET**. (Rate can be input with a maximum of 12 digits.)

Recall the Currency Conversion Rate – Press **ON CA** **RECALL LOCAL** to recall the currency conversion rate.

Currency Key – Used for converting the unit between **LOCAL** and **LOCAL** currency.

OVERFLOW FUNCTION

In the following cases, when "E" is displayed, the keyboard is electronically locked, and further operation is impossible. Press **ON CA** to clear the overflow. The overflow function occurs when: 1) The result or the memory content exceeds 12 digits to the left of the decimal point. 2) Dividing by "0".

SPECIFICATION

Power Source: Solar cell and alkaline battery (LR44 x 1)
 Automatic power-off: approx. 7 minutes
 Usable Temperature: 0°C to 40°C
 Dimension: TS1200TSC - 179mm (L) x 126.5mm (W) x 18mm (H)
 HS-20TSC - 179.5mm (L) x 108mm (W) x 26mm (H)
 Weight : 194g (TS-1200TSC) / 159g (HS-20TSC)
 (Subject to change without notice)
