

TAX FUNCTION

- Store the Tax Rate** : Enter the tax rate figure, then press **[RATE]** **[SET]** to store.
- Recall the Tax Rate** : Press **[RATE]** **[RECALL]** to recall the current tax rate.
- Add Tax Key** : Used for adding the tax amount to the displayed figure.
- Deduct Tax Key** : Used for deducting the tax amount from the displayed figure.

TAX CALCULATION EXAMPLE

	Calculation	Operation	Display 1'234'567'890.12
[TAX+]	Set tax Rate Tax Rate: 5%	5 [RATE] [TAX+]	(TAX% 5.)
[TAX-]	Add the Tax Amount Price \$2,000 without tax Selling Price with tax =? (\$2,100) Tax =? (\$100)	2000 [TAX+] [TAX+]	(TAX+ 2'100.00) (TAX 100.00)
[RATE]	Deduct Tax Amount Selling Price \$3,150 with tax Price without tax = ? (\$3,000) Tax =? (\$150)	3150 [TAX-] [TAX-]	(TAX- 3'000.00) (TAX 150.00)

POWER SUPPLY

This calculator comes with a dual power source. Generally, under normal room lighting, the calculator is powered by a built-in solar cell. When the light level drops below a certain point, it will automatically switch over to battery power. The lithium battery is long lasting, however the battery life will depend on usage. When the battery is exhausted, you can still use the solar cell to power the calculator. **(Note:** Do not attempt to change the battery. Please have a Canon Service Center technician change the battery.)

- Electromagnetic interference or electrostatic discharge may cause the display to malfunction or the contents of the memory to be lost or altered. Should this occur, press the **[ON/CA]** key and re-start your calculation from the beginning.

DECIMAL POINT SELECTOR SWITCH

: Used for designating the decimal point position (+ 4 3 2 0 F) for calculated results.

+ (Add Mode) : Addition and subtraction functions are performed with an automatic 2-digit decimal. It is convenient for currency calculations.

F (Floating Decimal Point) : All effective numbers up to 12 digits are displayed.

ROUNDING SWITCH

: Used for round-up [], round-off [5/4] or round-down [] to the pre-selected decimal digits in the result.

OVERFLOW FUNCTIONS

In the following case, "E" will be shown on the display. The keyboard is electronically locked, and further operation is impossible. Press **[CL/C]** to clear the overflow. The overflow occurs when:

- The key input, result or the memory content exceeds 12 digits to the left of the decimal point.
- Dividing by "0".

SPECIFICATION

Power Source: Please refer to the product backside.

Automatic power-off function: Approx. **7 minutes**

Usable Temperature: 0°C to 40°C (32°F to 104°F)

Dimensions: 198mm (L) x 150mm (W) x 38mm (H) / 7-51/64" (L) x 5-29/32" (W) x 1-1/2" (H)

Weight: 238g (8.4oz)
